RE: **Permit Applicability Determination**
Ashland LLC
Beryl Plant
Plant ID No. 057-00003
Determination No. PD17-017

Dear Mr. Preston:

It has been determined that your proposed changes at the Beryl Plant are not defined, pursuant to §45-13-2.17, as a "modification" or, pursuant to §45-14-2.40, as a "major modification." This determination is based on the information in your Permit Determination Form (PDF) submitted on March 9, 2017 that indicates that the changes will not result in any increase in the potential-to-emit (PTE) of the facility, will not result in a significant emission increase calculated according to the procedures outlined under §45-14-3.4, or *trigger* a substantive requirement of any State or Federal air quality regulation.

Please be aware that any future changes to the facility may trigger the requirement to obtain a permit if the changes are defined as a "modification" under 45CSR13 or as a "major modification" under 45CSR14.

Should you have any questions, please contact the undersigned engineer at (304) 926-0499 x1219.

Sincerely,

Joe R. Kessler, PE
Engineer
